SUMMARY

Full-stack developer with a strong focus on back-end technologies and a proven track record in finance. Experienced problem-solver with a passion for delivering high-quality solutions. Proficient in JavaScript ES6+, CSS3, and HTML5, with hands-on experience in SQL and NoSQL databases such as MongoDB and MySQL as well as frontend frameworks like React and Handlebars.

PROJECTS

Sole Search | Github: **https://github.com/A-Witthohn/SoleSearch**
Deployed: **https://sole-search-258e49665aec.herokuapp.com/**
- *Summary: Application where users can swipe on shoes and save their liked shoes*
- *My role: Built out the backend database with MongoDB and set-up the queries and mutations*
- *Tools: HTML, CSS, Javascript, React, MongoDB, GraphQL, Apollo*

Beer Finder | Github:**https://github.com/jacone626/beer-finder**
Deployed: **https://beer-finder-jacone626-f687f9bda2d5.herokuapp.com/**
- *Summary: Website that pairs a type of beer with an activity and allows users to see and leave reviews on those pairings*
- *My role: Set-up the SQL models and created the routes for finding pairings and leaving reviews*
- *Tools: HTML, CSS, Javascript, Bulma, Sequelize, Express, Handlebars, Node.js*

EXPERIENCE

PPD, Wilmington, NC   August 2019-June 2022
Senior Commercial Analyst
- Led the budgeting process for clinical trials from initial RFP receipt to contract - Worked on over one hundred unique proposals with values up to $90MM in total costs
- Utilized PPD's proprietary budgeting system, Synergy, to create accurate budgets based on specifications provided by the client and internal PPD team - Operated in Excel frequently to provide clients with concise budget documents
- Tracked study spending and provided clients with cost projections based on previous work completed - Collaborated with Project Managers to align our budget with actual costs incurred during the study
